

GALLERIA VIK MILANO

Milano, Italy

Galleria Vik Reopens Its Doors

Having only opened its doors in late 2019, Galleria Vik Milano, like many other hotels, had the unfortunate predicament of having to halt its launch momentum. Now, the art-centric hotel has reopened its doors to the public. With its sublime location in the rafters of Galleria Vittorio Emanuele II, Vik's Milan edition offers views onto the Galleria and its infamous bull. As the city of Milan starts to welcome more and more tourists, the hotel has been busy implementing a number of safety precautions to make guests feel totally safe. Contactless check-in

and check-out will be in place and rooms would have been deep-cleaned and vacant for at least 48 hours before arrival. As always, the excellent concierge team will be on hand to assist in any tailoring of your stay, promising a seamless and safe visit, from start to finish. Of course, this stay places you in perfect proximity to La Scala opera house and other renowned landmarks, boutiques and high-end retailers, as well as many of the top restaurants, ice-cream and coffee shops in the city, so you can immerse yourself back into the Milanese way of life with ease.
