Italy's design capital is a hotbed of fun – if you know where to go.

### Where to stay in Milan

#### **Galleria Vik Milano**

Set within the rafters of Milan's storied 19th-century arcade, [Galleria Vik Milano](#) boasts views of the Piazza della Scala on one side and Galleria Vittorio Emanuele II's boutiques on the other. It's the playful combination of Italian and Uruguayan design, however, that make the hotel a *Vogue* favourite. (The owners, husband and wife Alexander and Carrie Vik, are also behind the glorious Vik Retreats in Latin America, including the bucket-list-worthy Bahia Vik José Ignacio.) Each of the 90 rooms is unique – with the decor in each inspired by a particular artist. Spring for a Grand Terrace Room and linger over an *aperitivo* on your own private balcony.
