

## Why is Galleria Vik Hotel the Essential Spot of Milano?

The capital of fashion, culture and luxury can be summed up in one place: The Galleria Vik Hotel, which overlooks the iconic Galleria Vittorio Emanuele II. On holidays, on a business trip, with friends and family or all alone, here are the reasons you should experience the hotel's life during your stay in Milan.

### 1. The Perfect Location

The golden lights of the galleria reflecting at your window, giving way to a bright sky and to the joyful echoes of the Italian voices on the galleria, gives a certain *je-ne-sais-quoi* to the place.

Located at the centre of the capital, between la Piazza del Duomo and under the skylines of the galleria Vittorio Emanuele II, the hotel offers a panoramic view of the most beautiful monuments of the city. Museums, retailers, galleries, libraries, cafes are surrounding the environment and are making your stay embellished by its typical treasure.

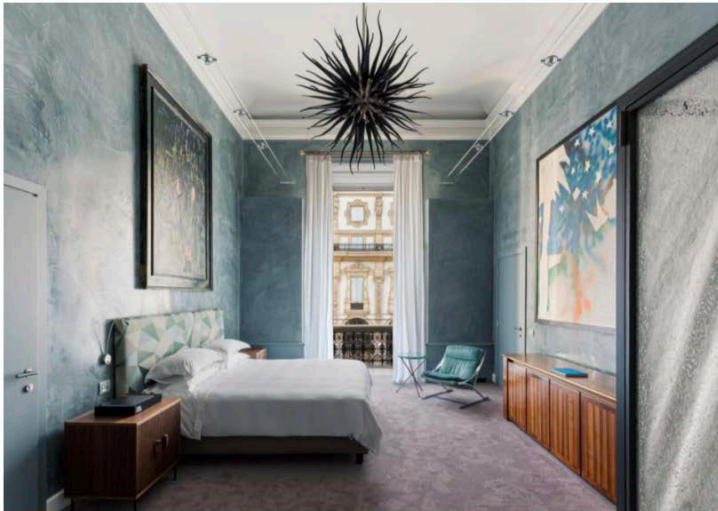

Accessible, relaxing, luxurious are the three main words that would describe the hotel's spirit. The iconic architecture of the balconies will let you discover the changing light that pierces the canopy in a new astonishing scenery every minute, each day.

## 2. The Beauty of the Rooms

There is no better feeling than to know that you are in a safe and secure environment and to feel at home when it is about spending a relaxing and pleasant week in a vivid and dynamic city like Milan. The hotel welcomes you in a beautiful environment designed by artists whose style and artistic imprints are anchored in the place.

Decorated by various local and international artists, the rooms offer a vibe, a positive mood and a balanced, colourful vision.

### 3. The historical context related to the place

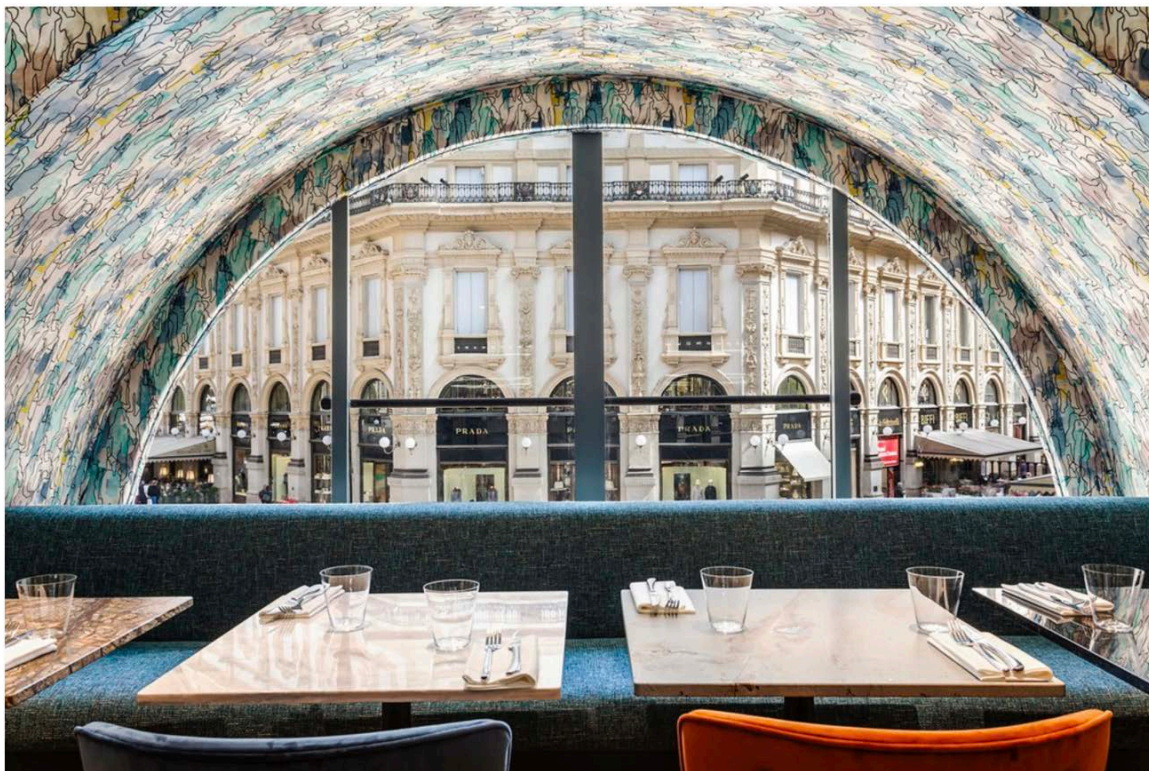

Even though the place is located in the centre of the medieval city, the shopping mall arcades occupied on the gallery's ground floor gives modernity to the iconic place and becomes the unmissable spot to visit in the city.

The designed rooms and suites celebrate the artistic heritage and highlight the singularity and uniqueness of the hotel.

"Originally designed in 1861 by Guiseppe Mengoni and built between 1865 and 1877, the Galleria is named after the first King of the Kingdom of Italy, Victor Emanuele II." Marcelo Daglio, the man behind the architecture of the rooms, combined his work with Carrie and Alex Vik. They have imagined the interior of Galleria Vik. Contemporary and antique, the place confronts two perspectives for a mesmerising result.

### 4. The Services the Hotel Offers

The hotel enables direct access to the luxurious V Bar and Restaurant to taste local Italian products and delicious meal preparations.

Pizza, pasta, Mediterranean dishes and seasonal inspirations can be brought to you on a platter!

The rooftop offers you a panoramic view of Milan and the attics of the Galleria Vittorio Emanuele II, letting you in direct contact with the birds and the stars.

The hotel also offers wellness and care services through the spa, located on the top floor, in which you can fully relax.

Galleria Vik Milano hotel is the spot to stop by at least once in a lifetime... and they are ready to welcome you.
